OBJECTIVE

Seeking a position as Machine Learning engineer or Data Scientist.

WORK EXPERIENCE

Studyworld   July 2019 — August 2019
Data Science Intern

- Data processing
- Creation of machine learning models
- Seeking for insights and correlations in data

EDUCATION

Management in Engineering Systems   September 2017 — Present
SUITD

Current GPA: 4.84

Data Analysis & Machine Learning   March 2019 — Present
Yandex and MPTI

QUALIFICATIONS

- **Junior Python Developer**

- **Languages and technologies:**
  Python3, Pandas, Numpy, Scikit-Learn, Seaborn, PostgreSQL, Jupyter
- **Spoken languages:**
  Russian (native)
  English (C1, advanced)

ACHIEVEMENTS

- Participant of HackUniversity 2019

- Winner of </beCoder> in the field of Data Science

PROJECTS

- An algorithm which maximises profit by determining maximum hours of work of an equipment with minimal

deterioration (specially for BIOCAD)
- Several algotrading strategies based on machine learning
- Order completion predictor (during the Studyworld Internship)
- Offer completion predictor (during the Studyworld Internship)

...stay tuned for that :)
